*See backside for more details

All maintenance packages must have an annual spring clean out performed before starting these services.

All packages are for ponds up to 25' x 25', 2' Deep. Larger ponds will require a quote.

If Something Fishy did not install your pond or has never serviced your pond in the past, an on-site consultation will be required to establish you as a new customer; the consultation fee is \$75.

* Pond Packages 1, 2, & 3 are offered in-season and/or year around. Package 4 is a year-round program only and billed monthly.

** Free pump replacement on the Butler Package is limited to ponds that only have one pump up to a 7500 GPH model pump. Pump replacement is not valid the first 12 months of the program.

Party Package

Do you do a lot of entertaining in your backyard? Is your pond one of the main reasons your friends and coworkers invite themselves over for a night of dinner and drinks on the patio? Then have we got a deal for you! Something Fishy, Inc is pleased to introduce the Party Package. We'll give your pond a facelift for your next party, allowing you to focus on the rest of your party details!

We'll come to visit your home approximately one month before the party to assess what needs to be done, and come back the week prior to your event, getting it ready for its debut! Here are the basic maintenance tasks we'll be checking and/or performing on your pond in time for the big party:

- Mulch and weed areas directly around pond
- Clear up water
- Get rid of all debris
- Add rock/gravel as needed
- Trim plants
- Check and/or replace lights
- Tweak waterfalls
- Disguise biofalls filter & skimmer

All we ask for is to be notified one month in advance so we can have the crew and materials available to make your pond look its best. So plan that party and keep in mind that Something Fishy, Inc. is here to make your watery wonderland gorgeous just in time for the big event!

* Annual cleanout must have already been completed.
\$299 Per Party / Event, Plus Material

Spring Clean Out

(Typically completed in March or April, see our spring clean out guide for details)

\$75 per hour including traveling time, plus materials

An average 11' x 16' pond requires 6 man hours.

Fall Shut Down & Inspection Only

(Typically completed in October or November)

Fall shut downs include removing the pump for winter storage, cutting back plants, draining water lines on the pond and automatic water fill valve (if applicable), and adding a heater and air pump. **\$97.50, Plus Material**

Netting Service

In the month of September we will cover your entire pond with a net to prevent the October foliage from spoiling the pond! (if your ready in September for your fall shut down we can perform that too for no additional charge)

\$97.50, Plus Material
